

Cheryl Orloff:

Cheryl Orloff began skiing in 1979 and throughout her career, she performed in ski shows and tournaments throughout the United States and across the globe.

She revolutionized swivel skiing- accomplishing many first-time achievements. She was the first to do a shoulder-to-shoulder handstand on water, was a part of the first 5-tier pyramid, first 20-girl swivel ballet line, and was also the first to do the gainer 360 on the water.

Off the water, she has dedicated her time to working with the National Show Ski Association in developing new judging systems for swivel and doubles, and has devoted countless hours not only to judging clinics, but also to swivel and doubles clinics, mentoring several national-caliber competitors. Her contributions both on and off the water did not go unrecognized by the water ski community.
